SUMMARY

- IT undergraduate (CGPA: 9.30/10) with hands-on experience in full-stack development using Node.js, React.js, and REST APIs.
- Strong foundation in DSA, DBMS, and OOP, with a published research paper and hackathon achievements, including Top 10 Regional selection among 30,000+ participants.
- Passionate about building scalable, user-centric applications with a focus on performance optimization and clean code practices.

EDUCATION

- | | |
|--|----------------------|
| • B.Tech in Information Technology | 2025 – 2028 |
| Pune Institute of Computer Technology (PICT), Pune | CGPA: 9.30/10 |
| • Diploma in Computer Engineering | 2022 – 2025 |
| SVERI's College of Engineering (Polytechnic), Pandharpur | 95.37% |
| • SSC | 2022 |
| S. H. N. N. Shah Kanya Prashala, Barshi | 95.80% |

PROJECTS

Page Pulse – SEO & Performance Auditor

GitHub Live Demo

Node.js, Express, Playwright, Lighthouse, Jest

- Built a full-stack web application that analyzes websites and generates SEO reports with 15+ metrics, including Lighthouse scores and a custom SEO scoring algorithm (0–100).
- Integrated Playwright for browser automation, reducing analysis time by 70% (from 60s to under 15s) using optimized navigation strategies.
- Implemented Lighthouse integration (Performance, Accessibility, Best Practices, SEO) and deployed on Vercel and Render with CI/CD.

Alumni Connect – Mentorship Platform

GitHub

HTML, CSS, Node.js, Supabase, Socket.IO, JWT

- Designed and developed a full-stack mentorship platform connecting students with alumni for networking and career guidance.
- Implemented real-time communication using Socket.IO with JWT authentication, session management, and password recovery.
- Developed discussion forums and job posting modules while following modular software engineering practices and REST API architecture.

BhasiniBridge – Offline Dysarthric Speech Assistant (Ongoing)

GitHub

Python, PyTorch, Hugging Face Transformers, Whisper.cpp, React Native

- A Python-based speech recognition pipeline using PyTorch and Hugging Face Transformers to fine-tune Whisper-small with LoRA, achieving **13.99% WER**.
- Optimized and debugged the inference pipeline using whisper.cpp for efficient offline speech recognition on Android devices.
- Designed an Android application supporting face-to-face communication, audio sharing, and call assistance for users with speech impairments.

SKILLS

- | | |
|---|---|
| • Languages: Java, JavaScript, SQL | • Mobile: Android, Java, XML |
| • Frontend: HTML, CSS, React.js | • Tools: Git, Github, VS Code, Postman, Android Studio |
| • Backend: Node.js, REST APIs | • Core: DSA, OOP, DBMS, Computer Networks, OS |
| • Database: MySQL, Supabase | |

EXPERIENCE

Mobile Application Development Industrial Training

Jun 2024 – Jul 2024

TechnoTree, Pandharpur, Maharashtra — Java, XML, Firebase

- Developed Android applications using Java, XML, and Firebase while debugging application issues and optimizing performance.
- Implemented and tested login authentication, RecyclerView modules, profile management, and CRUD operations using Firebase Realtime Database.
- Improved application usability through UI optimization, API integration, troubleshooting, and performance tuning.

HACKATHONS

- **AMD Slingshot Hackathon**
 - Cleared the first evaluation round among 30,000+ startup idea submissions across India.
 - Selected among the **Top 10 teams from Pune** for the Regional Demo Round.
- **VELORA 1.0 National Hackathon**
 - Shortlisted for the national-level hackathon organized by MIT Academy of Engineering.
- **CHAKRAVYUH 1.0 National Hackathon**
 - Participated in the national-level IEEE-associated hackathon hosted by SVERI's College of Engineering, Pandharpur.

RESEARCH & PUBLICATIONS

- Published the research paper “**Developing a Comprehensive Website for Trending Cakes**” in the *International Journal of Computer Science and Engineering (IJCSE)*, Oct 2024. Credential ID: 5725 [Link](#)
